PROFILE

A creative Motion Designer and Video Editor with hands-on experience crafting dynamic visuals, animated content, and marketing videos.

Passionate about design, timing, and storytelling — turning ideas into compelling motion experiences.

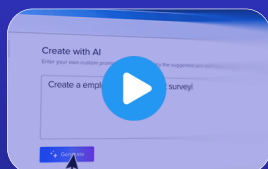

EXPERIENCE

- Video Editor & Motion Designer**
ZI Systech Pvt. Ltd, Bandra (Jul 2023 – Present)
At ZI Systech, I begin by creating detailed storyboards that set the visual tone and flow for each project, followed by crafting engaging animations and Lottie files that bring those ideas to life. From motion design to editing impactful testimonial videos, my role blends creativity and precision — turning concepts into visuals that connect with people.
- Video Editor & Motion Designer**
GetsetflyMedia, Mira-road (Oct 2020 – 2023)
At GetSetFly Media, I worked on editing raw footage, removing green screens, and enhancing overall video quality. I collaborated closely with scriptwriters and the production team, helped with shoots, and managed camera and lighting setups. Along with leading a small creative team, I ensured every project ran smoothly from shoot to final render.
